

MoneyFinder Service Bureau

Find Hidden Revenue

Your claims database contains hidden revenue. Discover an easy way to verify health plan eligibility without checking each patient one at a time.

- Obtain revenue by submitting bad debt-self pays to the patient's state of residence Medicaid before sending to collections
- Quickly identify patients who have third party coverage
- Identify patients classified as Medicare who have Medicaid dual coverage
- Find Medicaid or Medicare inpatient days to count towards your Medicare DSH calculation
- Update eligibility status on a monthly basis for those patients who have retroactive coverage (Medicaid and Commercial)
- Eliminate time consuming, ineffective eligibility efforts like payer websites and stand-alone point-of-service devices
- Maintain a history of eligibility requests and responses
- HIPAA compliant and secure

How MoneyFinder Service Bureau works:

MoneyFinder Service Bureau will process large batches of patient inquiries against government and commercial payers for your organization. Upon receipt of a Microsoft Excel or CSV (Comma Separated Value) file, transferred via a secure, password protected email, MoneyFinder Service Bureau submits the batch inquiry to your designated payers, then returns the payer response allowing you to upload the file into your information system for review.

In addition, the uploaded file can be customized based on your specifications, providing specific data selected by your facility.

MoneyFinder Service Bureau

- Provides an efficient way (batch processing) to secure eligibility information for large volumes of patients, eliminating time consuming single inquiries
- Processes inquiry files from your host system eliminating errors associated with manual entry
- Customizes payer response parsing based on your specifications, returning only the data you need
- Allows your organization to upload the response data to your information system for immediate and future use.
- Returns inquiry and response files for comparison of data differences
- Eliminates memorizing unique login and passwords for multiple websites
- Processes eligibility inquiries for you, allowing your staff to focus on other immediate issues

MoneyFinder Service Bureau increases revenue collection, improves productivity and provides an immediate financial reward. Join the growing number of hospitals and clinics that have enhanced their revenue cycle with MoneyFinder Service Bureau. Contact Provider Advantage at (800) 203-5465 for a demonstration or more information.

Easier way to verify health plan eligibility without checking each patient one at a time... it's your Provider Advantage.
