**PROVIDER ADVANTAGE NW AND TEMPUS SOFTWARE ANNOUNCE
PARTNERSHIP TO PROVIDE REAL-TIME INSURANCE VERIFICATION**

Beaverton, OR, June 29, 2005 – Provider Advantage NW, Inc., a national provider of automated, integrated real-time healthcare information software, announced today an agreement with Tempus Software[®], a Division of QuadraMed[®] Corporation (Amex: QD) to integrate their real-time eligibility verification service, *VeriLink*, within Tempus' leading enterprise scheduling system, TempusOne[®].

The integrated solution will seamlessly address insurance verification at the point of scheduling for hospitals. It will provide Tempus customers with real-time access to Medicare, Medicaid, and commercial health plan insurance data to confirm a patient's eligibility and determine the patient's financial responsibility for services rendered.

"Scheduling is where insurance verification needs to occur for hospitals to maintain an efficient, customer-focused process," said Matt Lang, Vice President, Sales and Marketing, Tempus. "Our partnership with Provider Advantage offers many benefits for our customers, including improved cash flow operations, reduced exposure to uncompensated care, and increased collection of co-pays and deductibles at the time of service."

"We are proud to be in partnership with Tempus," said Ted Tomkins, President of Provider Advantage. "The challenge in today's healthcare environment is how to cost-effectively optimize reimbursement by obtaining complete and accurate patient insurance information at the point-of-scheduling. Using the Tempus interface to *VeriLink* will enable the scheduler, without any additional data entry, to automatically see the result of an eligibility query displayed at the time the patient is scheduled. This capability and the ability to customize *VeriLink* to each organization's business rules will increase collections at point of registration and reduce the amount of work in the business office to collect from the patient or health plan."

-more-

This agreement expands the long-term and successful relationship between QuadraMed and Provider Advantage. The companies have worked together over the past two years to provide integrated, automatic and on demand, HIPAA-compliant eligibility services within QuadraMed's Affinity® Registration and Patient Accounting applications.

About Provider Advantage

Since 1991, Provider Advantage NW, Inc. has been providing innovative products and services to access real-time healthcare data. Provider Advantage develops, markets, installs, and supports electronic data interchange (EDI) technologies that allow organizations to obtain, utilize, and manage insurance data to generate operational efficiencies and improve cash flow. Conforming to the needs of each customer, Provider Advantage's products and services enable organizations to optimize revenues by establishing responsibility for healthcare services.
